# Handheld Particle Counters

The Model 3888 (3-channel) and 3889 (6-channel) Handheld Particle Counters utilize some of the same, proven parts that made our original Handheld Particle Counters so reliable and accurate, along with new and advanced components that increase power and ability. These instruments meet and exceed new ISO 21501-4 Standards and are fully RoHS compliant. The new base offers advanced communication capabilities like Wi-Fi, Ethernet and RS485, and the device has a much larger, full color, graphic touchscreen display. These particle counters can also be remotely controlled as well as monitored through a PC, which allows for convenient 24/7 monitoring with Kanomax's advanced software.

## Applications:

- Monitor and verify cleanrooms (Pharmaceutical, Semi Conductor, Food Industry)
- Monitor Surgical Rooms
- Filter Testing
- IAQ Investigation
- Data Center Cleaning

## Features & Benefits

- Model 3888 measures particle sizes: 0.3 $\mu$ m, 0.5 $\mu$ m & 5.0 $\mu$ m
- Model 3889 measures particle sizes: 0.3 $\mu$ m, 0.5 $\mu$ m, 1.0 $\mu$ m, 3.0 $\mu$ m, 5.0 $\mu$ m & 10.0 $\mu$ m
- Easy-to-use interface is displayed on a 4.3-inch, full color crack resistant, LCD touchscreen
- On-board data storage of up to 10,000 measurements
- Creates Microsoft Excel compatible .CSV file without the need for additional software and user can download it via USB memory
- Kanomax measuring software displays and graphs the measurement data in real-time while connected to PC
- Language setting options include English, Chinese, Japanese and Spanish
